

Vigilance in Action

*Delivering 24/7 Watch Officer Counterintelligence
Services for National Security Operations*

Introduction

In an era where national security threats emerge in real time across digital, kinetic, and geopolitical domains, the United States government depends on round-the-clock situational awareness, rapid response coordination, and secure intelligence monitoring. At the heart of this capability are **Watch Officers**—trained professionals tasked with safeguarding operations, managing alerts, and preparing leaders for rapid decision-making.

Strativia supports these national missions by delivering 24/7 Watch Officer and counterintelligence (CI) services to the Department of Energy (DOE) Intelligence Operations Center (IOC) and other federal environments. Our cleared professionals serve as the government's eyes and ears in the intelligence space—monitoring global threats, preparing reports and briefings, and responding to incidents as they unfold....

Securing the Intelligence Edge

Watch Officers and CI support teams act as the frontline communicators between field operations, the Intelligence Community (IC), and senior decision-makers. In high-stakes environments, their work requires precision, speed, and discretion.

Federal intelligence and counterintelligence teams increasingly depend on contractors to provide:

- 24/7/365 operational coverage, including holidays and emergencies
- Real-time monitoring of classified and open-source intelligence streams
- Situation report drafting, alerts, and continuity of operations (COOP)
- Secure video teleconferencing (VTC), crisis coordination, and records handling
- Collaboration with IC and national security partners during incidents

Strativia's cleared Watch Officers bring experience, composure, and situational fluency to this dynamic operating environment.

Strativia's Watch Officer Support Model

Strativia's approach to CI and watch support combines operational rigor with communication discipline. Our teams serve on rotating 12- and 8-hour shifts to maintain persistent readiness. Services include:

1. All-Source Monitoring & Threat Intelligence

- Monitor classified intelligence channels, open-source feeds, and national warning systems
- Maintain a continuous common operating picture for DOE and partner agencies
- Track and assess threats ranging from cyber intrusions to geopolitical developments

2. Rapid Alerting & Executive Communication

- Draft and disseminate significant event notifications and situation reports
- Escalate breaking events to DOE and Intelligence Community leadership within minutes
- Maintain secure communications and VTC with senior officials and field offices

3. Incident Management & Crisis Response

- Support Continuity of Operations (COOP) and Continuity of Government (COG) readiness
- Deploy to alternate sites during exercises and national emergencies
- Assist in after-hours classified courier delivery and document control

4. Operational Briefing & Stakeholder Liaison

- Provide verbal briefings to senior intelligence officials and agency leadership
- Maintain liaison with IC counterparts, law enforcement, and DHS elements
- Respond to Requests for Information (RFIs) and develop written intelligence products

5. SOP Development & Intelligence Product Delivery

- Draft point papers, talking points, situation summaries, and threat assessments
- Maintain and update IOC Standard Operating Procedures and emergency contact lists
- Coordinate report delivery to ensure compliance with DOE-IN publication standards

Case Highlight: DOE Intelligence Operations Center

Strativia currently provides 24/7 cleared Watch Officer support to the **U.S. Department of Energy's Intelligence Operations Center (IOC)**. Our team ensures that national leaders are informed and prepared during moments of heightened risk.

Key services include:

- Round-the-clock coverage in TS/SCI environments
- Monitoring and analysis of global CI threats and intelligence channels
- Drafting of DOE-wide notifications and crisis reports
- Secure VTC setup for senior briefings and coordination
- Physical and document security, including after-hours Executive Secretariat support

Our support enables DOE-IN to fulfill its national intelligence mission with speed, accuracy, and continuity.

Strativia Certifications and Assurances

Strativia's CI and watch support services are backed by institutional quality and security controls:

- **ISO 9001** – Ensures consistent, auditable delivery of secure operations
- **ISO 27001** – Maintains information security governance for classified support
- **CMMI Level 3** – Establishes repeatable, well-documented service delivery across federal missions

Whether responding to global threats or coordinating national emergency responses, Strativia ensures mission continuity with confidence.

The Strativia Commitment: Vigilant. Trusted. Ready.

In the intelligence and national security space, response time and credibility matter more than ever. Strativia's Watch Officers serve with discretion, discipline, and dedication—delivering clarity during chaos and reinforcing the government's ability to act swiftly and strategically.

“From alert to assessment, Strativia helps agencies navigate complexity and preserve national resilience.”

Let's protect the mission—together.
