NASA SEWP VI Ordering Guide

Use Strativia's NASA SEWP VI contracts to acquire enterprise-wide and mission-based Information Technology, Communications and Audio-Visual (ITC/AV) services. This guide summarizes scope, quote requests, ordering and customer support.

CATEGORY B

80TECH26D1419

Enterprise-Wide ITC/AV
Service Solutions

CATEGORY C

80TECH26D0103

Mission-Based ITC/AV
Service Solutions

SEWP overview and scope

NASA SEWP is a Government-Wide Acquisition Contract serving federal agencies and eligible approved contractors. Its three categories are A: ITC/AV Solutions; B: Enterprise-Wide ITC/AV Service Solutions; and C: Mission-Based ITC/AV Service Solutions. Strativia holds Categories B and C. All requirements must fit the awarded scope and applicable contract terms.

For a scope review, send a requirement overview and/or bill of materials to help@sewp.nasa.gov. Confirm the applicable category and authorized offerings before requesting a quote.

About Strativia

Founded in 2006 and headquartered in Largo, Maryland, Strativia delivers technology, consulting and operational services for civilian, defense and intelligence missions. Capabilities include enterprise IT, cloud, cybersecurity, data analytics, artificial intelligence, systems engineering and program management.

FROM REQUIREMENT TO DELIVERY

Ordering and customer support

How to order

1 Define the requirement

Identify the scope, category, applicable NAICS code, performance period, deliverables, funding and agency-specific requirements. Obtain NASA SEWP scope assistance if needed.

2 Request quotes and provide fair opportunity

Use the NASA SEWP Quote Request Tool (QRT), identify the applicable category and contract, and include the statement of work, response deadline and evaluation instructions. Follow applicable FAR 16.505(b) fair opportunity requirements and current NASA procedures. The contracting officer documents the selection and price rationale.

3 Issue the order through your agency

Submit the purchase request and funding information to your agency's procurement office. That office issues the delivery or task order using an authorized agency form and order number. Agency-specific acquisition policies apply; NASA SEWP PMO does not issue the order.

4 Route orders and modifications through NASA SEWP

The SEWP PMO reviews, processes and tracks issued orders and forwards them to the contract holder. Route order modifications through the PMO as well. Use the current SEWP ordering instructions and Contract Holder User Manual.

Installation and post delivery support

Strativia coordinates installation, configuration, integration, site access, security requirements, testing and acceptance as defined in the order. Technical assistance includes incident reporting, troubleshooting, corrective action and escalation. Software support covers applicable licensing, activation, updates and maintenance under the authorized order and provider terms; software development and integration are services.

Basic warranty coverage and remedies follow the contract, order and applicable provider warranties. Applicable extended warranty coverage may be purchased during the standard commercial warranty period, with coverage beginning no later than its expiration; monthly maintenance options apply where permitted. Quotes and orders identify coverage, pricing, exclusions and support commitments.

For delivery discrepancies, defects, incomplete services or other concerns, provide the order number, issue and mission impact. Strativia acknowledges reported issues within one business day, coordinates corrective action, provides updates and documents resolution and customer closure. Contractual direction and modifications remain with the authorized ordering contracting officer.

NAICS REFERENCE / CATEGORIES B AND C

The approved Exhibit 4 crosswalks list these codes for both categories: 512191, 513210, 516210, 517111, 517112, 517410, 517121, 517810, 518210, 519290, 541330, 541511, 541512, 541513, 541519 and 541715. Small-business representations and applicable footnotes are governed by the approved Exhibit 4 crosswalks. A listed code does not independently establish awarded service scope; validate scope and catalog before quoting.

Contract terms and applicable order requirements govern if this guide conflicts. Maintain this guide before the first delivery order and update within 10 business days following contract modifications.
